SUMMARY

AI & Machine Learning trainee and Computer Science student with hands-on experience in Python, data preprocessing, and machine learning fundamentals. Currently completing an intensive Microsoft Azure AI/ML training track covering the full data science pipeline, from statistics and Python programming through deep learning, NLP, computer vision, and MLOps. Seeking an entry-level AI/ML Engineer or Backend Developer role to apply and grow these skills in a collaborative, learning-focused environment.

EDUCATION

Bachelor of Science in Computer Science
Zagazig University — September 2022 – September 2026

EXPERIENCE

AI & Data Science Trainee — Machine Learning Engineer Track
Digital Egypt Pioneers Initiative (DEPI) — July 2026 – Present

- Completing an applied Microsoft Machine Learning Engineer training program covering the end-to-end data science workflow, from raw data pipelines to scalable machine learning models.
- Building skills in Python programming, statistics and linear algebra, data preprocessing and visualization, and core machine learning techniques.
- Studying deep learning, natural language processing with attention models, and computer vision with transfer learning.
- Practicing on Microsoft Azure, including Azure AI Fundamentals and Azure AI Engineer Associate coursework.
- Learning MLOps tools, MLflow, and Hugging Face for model tracking, deployment, and lifecycle management.
- Working toward a capstone project applying the full pipeline from data preprocessing to model deployment.

TECHNICAL SKILLS

Languages & Libraries: Python, NumPy, Pandas, PyTorch, Flask

AI/ML & Data Science: Machine Learning, Deep Learning, Natural Language Processing, Computer Vision, Data Preprocessing & Visualization, Prompt Engineering

Platforms & Tools: Microsoft Azure (AI Fundamentals, AI Engineer Associate), MLflow, Hugging Face, Git

Core Foundations: Statistics, Linear Algebra, Algorithms, Problem Solving

RELEVANT COURSEWORK / TRAINING

- Prompt Engineering
- Math (Statistics and Linear Algebra Basics)
- Python Programming
- Python for Data Science, AI & Development
- Preprocessing & Visualization
- Machine Learning Techniques
- Deep Learning
- Natural Language Processing with Attention Models
- Computer Vision and Transfer Learning
- Azure AI Fundamentals
- Azure AI Engineer Associate
- MLOps Tools, MLflow, and Hugging Face
- Capstone Project

LANGUAGES

Arabic (Native), English (Proficient)
